

## Trauma Informed Care

Trauma-Informed Care is an organizational structure and framework that involves all staff understanding, recognizing, and responding to the effects of all types of trauma. All staff at ETCADA incorporate the principles of Trauma-Informed Care. We realize the widespread impact of trauma, recognize the signs and symptoms of trauma in clients, families, staff, and others involved with the system, understand all potential paths for recovery, and respond by fully integrating knowledge about trauma into policies, procedures, and practices.

## Prevention Services

### Youth Prevention

The **Youth Prevention Universal (YPU)** and **Youth Prevention Indicated (YPI)** programs utilize the evidence-based curriculum Positive Action facilitated by a certified instructor in its fidelity for students in 3rd thru 12th grades. The eight sessions contain a variety of interactive lessons which address the underlying causes of substance abuse and provide students with the life skills needed to make healthy choices while reinforcing the philosophy that you feel good about yourself when you do positive actions.

### Prevention Resource Center

The **Prevention Resource Center (PRC)** focuses on regional substance abuse and related factors, data collection and distribution, and is a training liaison in substance abuse prevention for the region. Avenues utilized to disseminate data collected are through our web site at [www.prcfour.org](http://www.prcfour.org) and Region 4 PRC social media pages where we post state and regional data trends, training opportunities, and events. PRC4 also coordinates continuing education in Prevention Specialists and other professionals seeking education in the field of Behavioral Health.

The **PRC4 Tobacco Education Specialist** conducts voluntary tobacco retailer compliance checks, provides education on current tobacco laws, and confirms adherence to Texas state tobacco laws.
